THAT Providence hath provided a remedy for disorders the most desperate mankind are liable to, is verified by the many wonderful cures performed by the Antiarthritic Ointment; which, beyond the power of controversy, is a sovereign medicine to eradicate those dreadful disorders

and which, by long experience, hath been found to be as harmless in its composition, as it is efficacious in its result; and as the following extraordinary list of cures as inserted in Mr. Raikes's Gloucester Journal, March 20, 1783, has been performed since the publication of the first edition 1783, all in the circle of the Proprietor's knowledge, and have received the cases spontaneously from the patients themselves, most earnestly wishes to lay them before the publick.

The full particulars with their cures are inserted in the second edition, which will be given with each box of the Ointment, or may be had to read gratis.

The following is a list of Cures performed since the publication of the first edition.

N. B. The first edition of Cases and Cures will be given with each box of the Ointment.

The following Letter has been received since the publication of the last sixty Cures by the Antiarthritic Ointment for the Gout and Rheumatism, as inserted in the Gloucester Journal of March 21, 1785.

TO MR. RICKETTS,

S I R,

I Return you my very sincere thanks for the Cure I have obtained by the use of your most excellent Ointment; for, being afflicted a long time with the Rheumatism, I anointed the place aggrieved, so that in a few times it re-

lieved me so much that I am quite free from any pain.—Likewise my Cousin Ann Skinner, desires her best thanks for the great benefit she has received from a small portion of that most valuable Ointment, which I gave to her.

From, Sir,

Your most obedient,

and obliged humble servant,

Ross, Herefordshire,

April 17, 1785.

ELIZ. SKINNER.

DIRECTIONS for using it.

The application is simple.—When the Gout is predominant, and the pain violent; use it often: this will hasten on the swelling, and soon alleviate the pain.—As the pain alluages, and the swelling goes off, use the Ointment at your discretion.—The above application has been found to be of infinite service in all rheumatic complaints.
